Health Care Point

1. Introduction:

Accessibility to essential medical services and diagnostic testing is more crucial than ever in the fast-paced world of today. Finding time for necessary health check-ups and disease detection is difficult because of how busy our lives are become. We built a platform that works with reputable hospitals and laboratories to offer these services to your door after realizing this demand.

Our platform makes it easier to do medical tests from the comfort of your home and receive the results. Additionally, we provide the ease of making appointments with your preferred doctors at our affiliated hospitals using our website.

Patients may quickly register to accounts, check schedule, booking appointments, and feel secure knowing that we place a high priority on prompt sample collection and report delivery. Besides, for emergency cases, they can take our ambulance service. They can order medicine on our website as well. Our goal is to improve healthcare's patient-centricity, efficiency, and accessibility. We think that everyone should have simple access to medical care and the data they require to make wise health decisions. Our website links patients and healthcare professionals, providing a smooth answer to all of your medical needs and reducing stress associated with receiving medical care. Our website takes online payment as well for the well-being of the patients. Patient can do their payment through online or in-cash.

Our employees are always there for guiding the patients with whatever help they need. The employees will be collecting samples of the patients from their home and also they will deliver the report as well. Also, patients will receive their reports online which will be provided by our website after taking it from the hospitals or diagnostic centers.

We take full guaranty of our employees and services because the admins of our website will be always taking care of the website. From confirmation of a lab test to assuring lab equipment for sample collecting, they will keep track of everything. Our website will assure if the patient are getting the services properly or collecting the reports on the due date. We will be hearing every comments and reviews, well or bad, we will take actions as per our rules and will always try to give flawless services.

2. Features:

1. Login System
2. Admin Panel
3. Employee Panel
4. Check Schedule
5. Check Sample Collection Date
6. Check Report Giving Date
7. Confirmation of Appointment
8. Make Appointment (Online/Cash)
9. Generate Confirmation Message (Admin)
10. Get Confirmation Message (Patient)
11. Check Patient Booking (Admin/Employee)
12. Manage Patient Schedule (Admin)
13. Register Employee (Admin)
14. Give Task Employee
15. Collect Samples (Employee)
16. Employee Salary Giving (Admin)
17. Check Test Equipment
18. Check Laboratory Payment Details
19. Check Laboratory History
20. Check due Sample Collection
21. Check due Report Collection
22. Collect Reports (Employee)
23. Deliver Reports (Employee)
24. Chat board for patient

25. Manage Account (Customer, employee)

26. Inventory Lab Checks (Admin)

27. Ambulance Service

28. Order Medicine

3. Requirements:

3.1. Functional Requirements:

1. A system must have authentication like admin, user, and Patient.
2. A system should add, modify, and delete the medicine product.
3. A system should charge the customer for the service when a certain action is completed.
4. A system should be able to create an account, modify and delete it.
5. A system should be able to maintain employee details which includes add, view, and delete
6. A system should maintain patient details such as name, phone no, address and order date, number of orders etc.
7. A system should be able to store the order details such as place order, view order and modify order status.
8. A system needs to print the bill and store it for audit trail.
9. A system must be able to be search and sort item according to the user preference or product category.
10. A system should receive feedback from the patient.

3.2. Non-Functional Requirements:

1. Usability - Should be user friendly.
2. Reliability - The system should be available to patient for all the time.
3. Scalability - How fast does the system return results and how much this performance will change with higher workloads.
4. Maintainability - System should be easy to maintain and cost effective.
5. Security - The system and its data must be protected against attack.

Tips & Tricks

- What is causing my back pain, and how can I remedy it?
Nov 22th, 2022 by Admin
- How should I eat to prevent acne?
Feb 17th, 2021 by Admin
- Need a nurse for my old mother the house
Jul 25th, 2023 by Admin

FAQs

- How Can I know my blood pressure is high?** Only a doctor or other qualified healthcare provider can determine if you have high blood pressure. Your blood pressure can be quickly and painlessly measured. SMBP monitoring, also known as self-measured blood pressure (SMP) monitoring, is something you should discuss with your medical team.
- My child is suffering from fever, how can I know that is it bacterial fever or not?
- I am having rashes on my skin, what should I do?
- What does the start of a migraine feel like?

12. Conclusion:

In conclusion, "**Health Care Point: Home Health Services & Diagnostic System**" stands as a pioneering solution that is reshaping the landscape of healthcare accessibility. Our platform has ability to connect patients seamlessly with healthcare professionals and deliver essential medical services and diagnostic testing to their doorstep is a testament to our commitment to improving healthcare access. Our core values of efficiency, security, and patient-centricity underscore our mission to simplify healthcare and prioritize the well-being of our users. The dedication to gathering and acting upon user feedback, as well as our continuous pursuit of excellence, exemplify our unwavering commitment to delivering top-tier services. In summary, our platform not only addresses the challenges of today's fast-paced world but also holds the potential to significantly elevate the healthcare experience for individuals. We are proud to be at the forefront of this transformation, working diligently to ensure that everyone has easy access to the medical care and information needed to make informed health decisions.
